

BIO5 INSTITUTE
FELLOWS

BIO5 Fellows are scientists who have expressed a desire to work in a hub for innovation and creativity, with a translational focus towards developing new technologies, diagnostics, and treatments to solve humanity's grand biological challenges.

Andre-Denis Wright, PhD

Director, Professor of
Animal and Comparative
Biomedical Sciences

Research Focus:
Developing strategies to
increase the efficiency of
nutrient utilization in
livestock and to raise the
level of food production
in an ecologically
sustainable way.

From RESEARCH

to IMPACT
